

Lesson #1

Turning the Calculator on and off

- Press  to turn calculator on
- Press   to turn calculator off

About the Buttons

A majority of the buttons on the Ti-84 graphing calculator have 3 functions. The first function of the button is labeled on the button itself. The second function to each button is listed above the button to the left and is color-

coded blue with the  button on the calculator. The third function to each button is listed above the button to the right and is color-coded green with the  button. These buttons will be discussed in more detail in a future section.

SET 1 - For the following keystrokes, list the 2nd function that is being used.

LP#1  	 	 
LP#2  	 	 
R#1  	 	 
R#2  	 	 
R#3
